

CREATIVE BIOMART®

Diagnostic Proteins

Chicken Plasma In Potassium EDTA

Product Information

Catalog

PM-121C

ProductName

Chicken Plasma In Potassium EDTA

Short Name

Plasma(Chicken)

similar

Plasma

Source

Plasma

Species

Chicken

Product Overview

Chicken Plasma In Potassium EDTA

Applications

Applications Notes:

pH: normal; Immunoelectrophoresis: normal; Hemoglobin: normal; IgG Concentration: normal

Storage

Store container at -20 centigrade prior to opening. Avoid cycles of freezing and thawing.

Concentration

72 mg/mL by Refractometry

Shipping

Dry Ice

CREATIVE BIOMART®

Diagnostic Proteins

Chicken Plasma In Potassium EDTA

Synonyms

chicken plasma in Potassium EDTA; plasma from chicken with anticoagulant Potassium EDTA;
chicken plasma

Physical State

Liquid

Sex

Mixed

Anticoagulant

Potassium EDTA

Sterility

Non-sterile

Preservative

None

Stabilizer

None

Expiration

Expiration date is one (1) year from date of receipt.
