Catalog

RBC-073H

ProductName

Horse Red Blood Cells, 10% Washed Pooled Cells

Short Name

Red Blood Cells(Horse)

similar

Red Blood Cells

Source

Red Blood Cells

Species

Horse

Product Overview

Horse Red Blood Cells 10% Washed Pooled Cells

Description

Horse whole blood is washed to remove the platelet rich plasma, buffy coat layer, and leukocytes (WBC). Red blood cells are supplied as a 10 percent suspension in phosphate buffered saline (PBS). Horse red blood cells are useful for the titration of complement, adsorption procedures, testing for agglutinins/HA assays, and for the preparation of stroma as particulate reagents. Horse red blood cells are perishable and are collected and processed upon receipt of your order.

Form

0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Applications

Horse Red Blood Cells, 10% Washed Pooled Cells

Applications Notes: Complement titration, adsorption procedures, HA assays and for the preparation of stroma as particulate reagents.

Storage

Store horse washed pooled red blood cells at 4 centigrade prior to opening. Be advised that blood is a perishable product and exact shelf may depend on application.

Shipping
